Positions in CSS
Assignment

QUESTION 1::Create A simple webpage as shown in the below image.
- **The webpage must be in dark mode .**
- **The webpage must have a sidebar to the left with navigation Link.**
- **The output must be achieved using the CSS float property and no CSS position property except flat must be used.**

ANSWER:

```
PROGRAM:<!DOCTYPE html>
<html lang="en">
<head>
    <meta charset="UTF-8">
    <meta name="viewport" content="width=device-width, initial-scale=1.0">
    <title>Document</title>
    <style>
    body{
        background-color: #1b1818;

    }
    body{
        display: block;
        margin: 8px;
    }
    nav>img{
        width: 150px;
        background-color: #4cc9e8;
    }
    .nav-1{
        background-color: #32394f;
        min-height: 100vh;
        width: 150px;
        float: left;
        padding-top: 0;
        margin-top: 0;
    }
    .nav-link{
        display: block;
    }
```

```css
    .nav-link{
      margin-left: 0
   ;
       color: aliceblue;
    text-decoration: none;
    border-bottom: #1b1818 1px dashed;
    padding: 10px 25px;
    display: block;
    }
    h1{
       text-align: center;
       color: #6638ef;
       font-size: 35px;
       font-family: "Lucida Sans", "Lucida Sans Regular", "Lucida Grande"}
    p{
       color: aliceblue;
       text-align: center;
       line-height: 25px;
       font-family: "Georgia, Times New Roman, Times, serif";
}

       div>img{width: 500px;
        }
        .image{
          text-align: center;
        }

    </style>

        <p>PW Skills' mission is to permeate through every student/professional's outlook towards
jobs and change their attitude and perspective from "How Can I Do It?" to "Of Course I Can Do
It". We aim to do this by providing exceptional upskilling courses at affordable rates, while being
tech-forward so anyone, anywhere can access and improve their ability to be successful in
life.</p>
        </div>
    </section>

</body>
</html>
```

QUESTION 2:Create a simple webpage as shown in the below image.
- **The webpage must contain a content section and image.**
- **The content section with a heading, paragraph, and button must be aligned to the left and the image must be aligned to the right of the webpage.**
- **The output must be achieved using the CSS float property and no CSS position property except float must be used.**

ANSWER:
PROGRAM:

```html
<!DOCTYPE html>
<html lang="en">
<head>
    <meta charset="UTF-8">
    <meta name="viewport" content="width=device-width, initial-scale=1.0">
    <title>Document</title>
    <style>
```

```css
        body{
            background-color: #000000;

        }
        img{
            float: right;
            margin-top: 150px;
            width: 30%;
        }
        .main{float: left;
         width: 60%;
         margin: 200px 50px;}
        h1{
            color: aliceblue;
            font-size: 60px;
            margin: 0px;

        }
        p{
            color: aliceblue;
            margin-top: 16px;
            margin-bottom: 16px;
            font-family: Verdana, Geneva, Tahoma, sans-serif;
        }
        button{
            background-color: #5a4bda;
            margin-top: 20px;
            color: aliceblue;
            padding: 10px 25px;
            border-radius: 5px;
            font-weight: 700;
            border: 0;

        }

    </style>
</head>
<body>
    <img src="/IMAGES/download.jpeg" alt="hall of fame">
    <div class="main">
        <h1>PW Skills Hall of Fame</h1>
```

```
    <p>We are proud of our achievers to have proved their success through hard-work and
dedication which has enabled them to make their dreams come true. You too can be part of the
PW Skills achiever group only if you stay consistent and be determined.

    </p>
    <button>Share Your Story</button>
  </div>
</body>
</html>
```

QUESTION 3:Create a simple webpage as shown in the Below image.
- ● **The webpage must contain a card with some images and text.**
- ● **The card contains two columns below. Use CSS flat property to achieve the outcome. No table must be used.**

ANSWER:
PROGRAM:

```
<!DOCTYPE html>
<html lang="en">
<head>
    <meta charset="UTF-8">
    <meta name="viewport" content="width=device-width, initial-scale=1.0">
    <title>Document</title>
    <style>
.main{width: 300px;
    height: 620px;
    border: 1px black solid;
    padding: 5px;
    font-family: Verdana, Geneva, Tahoma, sans-serif;

}
.img{
text-align: center;}
img{width: 150px;}
.section1{
    width: 50%;
    float: left;
}
.section-left{
    color: #534ee7;
    font-size: 12px;
    font-weight: bold;
```

```css
}
.section2{
    width: 50%;
    float: right;
}
.section-right{

    font-size: 12px;}
    p{font-size: 13px;

    }
    </style>
</head>

QUESTION 5:Create a button as shown in the below image.
ANSWER:
PROGRAM:

```
<!DOCTYPE html>
<html lang="en">
<head>
    <meta charset="UTF-8">
    <meta name="viewport" content="width=device-width, initial-scale=1.0">
    <title>Document</title>
    <style>
        body{text-align: center;
            margin-top: 200px;}
        button{
            background-color: #f36d6d;
            color: black;
            border-radius: 5px;

            padding: 10px 30px;
            border: none;
            font-weight: bold;
            position: relative;
        }
        span{
            background-color: #000000;
            color: white;
            padding: 5px 10px;
            width: 40px;
            border-radius: 5px;
            position: absolute;
            font-size: 10px;
            bottom: 30px;
```

```
        }
    </style>
</head>
<body>
    <button>Buy Now
        <span>15% Off</span>
    </button>
</body>
</html>
```

QUESTION 6:Create a simple webpage as shown in the image below .
- ● The webpage must be similar to what we have done in assignment 01.
- ● Add a chatbot image at the bottom right end of the webpage .
- ● The chatbot should be in the same position all the time.

ANSWER:
PROGRAM:

```
<!DOCTYPE html>
<html lang="en">

QUESTION 9:Design a customized dropdown menu as shown in the below image.
  ● **Initially, there should be a message disPlayed saying "Hover to show the droPdown".**
  ● **u can use the span tag or button tag to achieve this Once hovering the droPdown menu should be visible and there should be a horizontal scroll to view all the Things .**
  ● **u can achieve this by using the max-height property to restrict the height of the dropdown and the overflow property to get the vertical scroll bar to navigate between items .**
ANSWER:
PROGRAM:

```
<!DOCTYPE html>
<html lang="en">
<head>
